The IDT RH C5 is a powerful all-in-one UHF RFID Reader built with the Impinj E710 and Gen2X technology for top-class performance. Its integrated design ensures stable operation and long-lasting durability. Running on Android 11/13 with an octa-core processor, it offers optional large storage and a high-capacity removable battery. Along with UHF RFID, it also supports 2D barcode scanning, NFC, fingerprint recognition, and more, making it suitable for industries like banking, public security, warehousing, retail, logistics, and beyond.
